Passport

Digital Parking Permits

Going Paperless Has Never Been Easier

Passport's Digital Parking Permits solution simplifies permit management, eliminating paperwork and streamlining operations for cities and private operators.

Designed to save time and reduce administrative burdens, it provides a centralized system to easily track, issue, and manage all permit transactions. With automated renewals, self-service user accounts, and seamless integrations with enforcement tools like license plate recognition (LPR), managing compliance at the curb is more efficient than ever before.

Core Benefits

Save Time & Reduce Costs

- Automated renewals minimize manual work, reducing administrative costs
- Bulk management tools streamline approvals, updates, and change requests
- Fast, efficient reporting provides instant insights into permit data and optimizes resouce allocation

Improve Staff & Customer Experiences

- Self-service customer portal for easy permit management
- Quick and secure checkout simplifies purchasing
- Address-based eligibility flow ensures accurate permit issuance

Scale Effortlessly as You Grow

- Configured tiered pricing adapts to your city's needs
- Customizable rules and restrictions allow teams to adjust policies as city needs evolve
- Seamless enforcement integrations ensure compliance with real-time permit validation
