

# Parking Compliance Software

## Future-Proof Your Technology

Passport is the trusted technology partner for cities, delivering the tools and insights needed to drive compliance streamline enforcement, and improve curb management.

Our digital compliance solution empowers you to collect evidence, issue citations, and recover punitive revenues more effectively. Enjoy a more reliable, transparent system with real-time data, automated workflows, and flexible integrations to optimize every aspect of your parking operations while creating safer, more connected communities.

### Core Benefits

#### Streamline Operations

- Manage everything in one place with Passport's portal, our unified back-end system
- Gain insights to make data-driven decisions with out-of-the-box reporting
- Adapt to different rules and regulations without complicated workarounds

#### Gain Reliability & Transparency

- Easily mark and issue citations with Digital Chalking
- Monitor officer routes in real-time for enhanced compliance and safety
- Identify high-density areas to optimize signage or coverage gaps

#### Increase Revenue & Compliance

- Cover more ground and cut costs with integrated license plate recognition (LPR) technology
- Reduce appeals with clear evidence and documentation
- Recover unpaid citations more efficiently and apply escalation fees with a one-time setup

#### Improve the User Experience

- Allow residents to quickly and securely pay citations
- Simplify dispute processes and reduce the need for in-person visits with online appeals
- Provide real-time data access across the field, back office, and to the offender
