

One Complete Parking Solution: **One** Centralized Platform

Passport's powerful platform helps you manage mobile pay parking, parking enforcement, digital permitting, payment services and more. Centralize your parking data to operate more efficiently, increase revenue and improve the parking experience with an integrated solution.

How Passport Works For You

We live in a world that is constantly changing, at an exponential rate, propelled by the evolution of technology.

Driven by innovation and curiosity, Passport has adapted and expanded as the mobility industry shifts from simple, static and hardware-driven to connected, dynamic and software-driven. We provide our customers with possibilities. It's all about mobility redefined.

Passport is not only a leader in mobility software, we're the only company that helps cities, agencies, universities and private operators manage mobile pay for parking, digital enforcement, digital permits, mobility services and integrated payments from one platform.

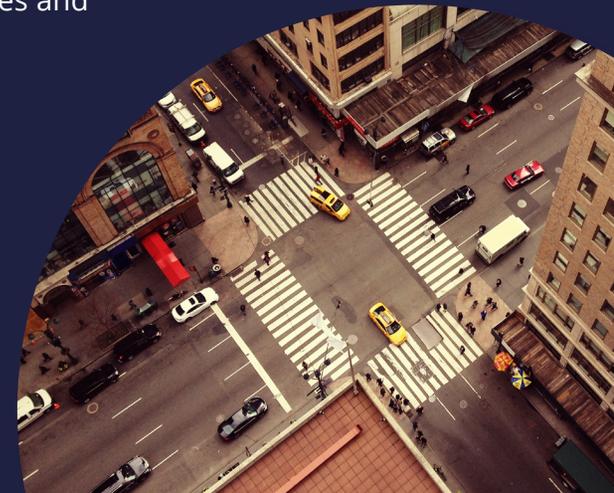

With Passport's platform you have the benefit of:

- Central management: Collect, aggregate and visualize all data in one central location
- Reduced costs: Spend less time searching for information and more time on value-added activities that achieve operational goals
- Easy integration: Integrate with other applications and enable multiple ways to pay for parking via wayfinding, in-dash, ADA and Text2Pay applications
- Decisions made easy: Quick access to data and insights that support policy change to improve resident experience

WHO WE SERVE

Passport's mobile solutions have helped hundreds of municipalities, private operators, universities and agencies manage and optimize their parking and mobility operations through real-time data and insights.

Millions of end users use the Passport Parking app, resulting in more than 2 billion transactions processed, from mobile parking sessions to citation payments.

Our Products Meet Your Needs

Passport's platform brings together best-in-class digital products, including mobile pay parking, enforcement, permitting and payments. All data from the platform is aggregated in Passport's portal, providing insights that help clients make decisions and take action. The result is a more integrated, efficient and reliable parking and mobility infrastructure.

Parking

Gain access to the industry's most powerful rate engine and offer the leading mobile parking payment solution on the market.

- Increase compliance and revenue
- Reduce reliance on hardware
- Offer end-users a variety of parking payment options

Enforcement

Our end-to-end enforcement software, including LPR and mobile ticket issuance, delivers a flexible and configurable solution.

- Streamline monitoring and ticket issuance
- Make data-driven decisions
- Automate delinquent revenue recovery

Permits

Our digital permitting solution automates permit requests, waitlist and renewals, and easily integrates with Passport's parking and enforcement systems.

- Eliminate manual processing
- Receive real-time updates
- Decrease operational costs

Payments

Work with a parking payments expert to eliminate unnecessary fees on small transactions and streamline your entire mobility operation.

- Significantly lower costs
- Prioritize security
- Leverage flexible settlement periods

Mobility

Our platform provides the ability to use zone-based or permit-based pricing to manage delivery fleets and control the scooter distribution.

- Reduce congestion and improve safety
- Provide more equitable access to mobility
- Increase revenue by charging for time spent at the curb

Services

We offer a comprehensive suite of premium services including training, support, marketing and programming.

- Prevent curbside congestion
- Create first/last mile solutions
- Provide equitable vehicle distribution

What Our Clients Have To Say

The team at Passport is amazingly enthusiastic about the product, and it's a fantastic product—way ahead of the industry. It's cloud-based, leading-edge technology and highly configurable."

Toronto Parking Authority, Ont.

With Passport's platform in place, we've established our digital infrastructure that truly future-proofs our operation. The data we're extracting is incredibly useful, and it's all in real time, so we have eliminated a ton of back and forth with our customers."

City of Westminster, Colo.

My initial impression of Passport was how passionate the staff was and their commitment to teamwork ... not only do those thoughts still remain, but they have been validated. I am impressed with all of the team members that I have had contact with from Passport."

Portland, Me.

To keep up with the evolving needs of our residents and visitors, we are actively seeking new ways to enhance the user experience. By providing access to multiple parking payment apps, we continue to reduce our reliance on hardware while gathering the data and insights needed to assess and improve the parking experience in our community."

City of Tampa, Fla.
