Post-Pandemic Parking & Mobility Recovery Guide

The pandemic crisis has changed how cities operate. But as restrictions begin to lift and cities gradually reopen, new challenges arise in a post-pandemic era. To ease the shift into recovery mode, Passport has compiled the following resources to help build your city's resiliency and safety:

- **Making the switch to contactless payments**
- **A digital solution for post-pandemic enforcement**
- **How cities should think about bringing back scooters post pandemic**
- **How cities can manage health threats while encouraging mobility**
- **Keep parkers safe with more contactless payment options**

Open Ecosystem

The Passport Operating System enables city leaders to manage vehicle interactions with streets and sidewalks, helping to create more livable, equitable communities. With Passport as your mobility partner you can manage parking, enforcement, permits and payments on one backend platform to help streamline operations and increase revenue.

The Passport Operating system simplifies transacting and enforcing using one back-end solution to:

- Streamline operations
- Increase compliance
- Grow revenue
- Improve the customer experience

We are here to help.
