Card Present Processing with Passport Payments

Use unified processing and reporting for both digital and physical transactions.

Passport Payments now offers card present processing, enabling you to use the same system to manage, view and reconcile transactions made at certified physical point-of-sale devices, including meters, paystations and more.

Passport is an expert in small transactions in the parking segment and has discounted rates in place across all major credit card networks to help reduce fees, provide daily settlement and offer other premium services.

With the highest level of security and stability included, Passport provides its clients peace of mind through a best-in-class payments solution.

Streamlined Processing & Better Efficiency

- Daily settlement and automated reconciliation options
- Single platform with seamless integrations

Significant Savings & Increased Cash Flow

- Reduce processing fees by up to 50%
- Enjoy flexible pricing options

Improved Staff & Customer Experiences

- Fast and efficient reporting
- Enable more payment options
