

Passport Parking

The easiest way to pay for parking.

The Passport Parking app is the most convenient and smart way to pay for parking. Built for cities and private operators, it helps manage barrier-less parking inventory with components to scale parking operations.

..... **CORE BENEFITS**

**Contactless
Payments**

**Real-time
Alerts**

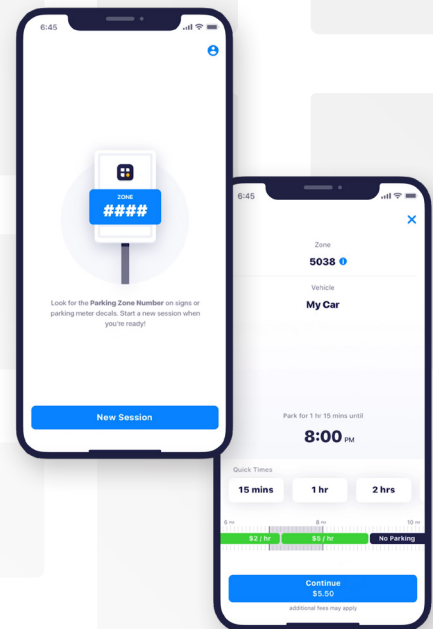

**Add Time
Remotely**

EFFORTLESS PARKING

Your parkers can quickly and easily pay for parking from their mobile device. Passport can also save you money on processing fees by up to 50%.

Additionally, our application allows you the flexibility to create customer wallets, and unlike other mobile parking apps, Passport does not settle a parking transaction until the time has expired or the user has ended their session.

KEY CAPABILITIES

- » iOS, Android and mobile web apps
- » Direct integrations with leading providers of enforcement and LPR software
- » A self-service merchant portal for local businesses to offer validations
- » End-user support tools and FAQs
